POWER PIPE CLEANER

571013880775
10030613

Power Pipe Cleaner for pipes ranging from 1m to 3m in diameter. The Power Pipe Cleaner is made from acid resistant stainless steel profiles, which can be adjusted as needed. The Power Pipe Cleaner has 1 Gear Nozzle (a nozzle using mechanical gears) with 4 TurboJet nozzles as standard. The TurboJet nozzles can be switched to Fat Nozzle, thereby achieving cleaning of pipes up to 3m in diameter. Furthermore the Power Pipe Cleaner can be used in narrow bottomed pipes, for cleaning out sand with the blue angle adjustable nozzle block (adjustable from 0 to 25 degrees). The nozzle block can be used on its own or along with the Gear Nozzle.

The Power Pipe Cleaner comes equipped with two 250 BAR 3/8" quick release connections, allowing for fast and efficient assembling and disassembling of the Power Pipe Cleaner. This helps to ease access to pipes with small entrances.

The hose is mounted on a stainless steel swivel.

The Gear Nozzle operates at a water flow of up to 60 l/min and the nozzle block at up to 400 l/min.

In its standard setup the Power Pipe Cleaner is delivered with:

5710138130818 – 4x 0.5" TurboJet nozzles.

8x M10 ceramic nozzle inserts (mounted in the angle adjustable blue nozzle block).

8x rubber wheels (125x50mm) with stainless steel mountings.

EAN Nr.	Weight	Height	Width	Length	RPM	Connection	Max pressure
5710138600007	56kg	75 to 100cm	63 to 120cm	70 to 110cm	30 to 60	1/2" to 1"	200 BAR

The Power Pipe Cleaner can be delivered with bigger wheels if needed.

The angles of the nozzles on the Gear Nozzle can be modified if needed.
